Code: 1426 Followed by the # sign.

About Uranium Resources

Uranium Resources, Inc. was incorporated in 1977 to explore for, develop and recover uranium. Uranium Resources controls minerals rights encompassing approximately 206,900 acres in the prolific Grants Mineral Belt in New Mexico, which holds one of the largest known accumulations of sandstone-hosted uranium deposits in the world. The Company has two licensed processing facilities and properties in Texas, and an NRC license to recover up to three million pounds of uranium per year using the in situ recovery (ISR) process at certain properties in New Mexico. The Company acquired these properties over the past 25 years, along with an extensive uranium information database of historic drill hole logs, assay certificates, maps and technical reports for the Western United States.
