About Uranium Resources

Uranium Resources, Inc. explores for and recovers uranium. URI has over 206,600 acres of uranium mineral holdings in New Mexico, processing facilities and properties in Texas, and an NRC license to recover up to three million pounds of uranium per year using the in situ recovery (ISR) process. The Company acquired these properties over the past 25 years, along with an extensive information database of historic drill hole logs, assay certificates, maps and technical reports.
